

**Uses for the  
15x25 Expanded  
Visibility Mirror**

*Revolutionary  
Mirror Technology for:*

**100 ton Mine and Quarry  
Rigid Haul trucks**

**The 15 x 25  
Expanded Visibility  
Mine Mirror:**

Clarity of view and expanded field of vision provides faster positioning of truck for load and unload operations and allows operator to avoid rubble that could cause catastrophic tire damage, aids in backing the vehicle, while at the same time increasing safety for personnel in the immediate area of the truck.

## 15 x 25 inch M-C Mirror

Size: 15 x 25 Inches 381 x 635mm

### Greater area of visibility

**M-C Mirror technology vs.  
Standard convex mirror**

**Standard convex mirror equals:**

**Increased view with distortion**

**M-C Mirror technology equals:**

**Increased view with no distortion**

### Rugged Construction

- Patented MC glass
- Tempered, 4mm thick
- Multi-Radius curvatures
- Rugged Case construction, carbon steel with a powder coated paint finish
- Infinitely adjustable positions
- Heated or non-heated
- Replaceable mirror glass
- Ball stud mount or hard mount
- Standard heating element

### Clarity of View

**Exceeds ISO 14401-2 Requirements**

**Combination of multiple rates of curvature in mirror using M-C patented Glass (U.S. Patent No. 8,172,411)**

**European Union Certified No.**

**II-E9-02.6485**
