

### **Agent Testimonials:**

There was never any question in my mind who I would go to work for...Century 21 Best Mountain Properties won on all accounts! After interviewing with a few local companies the things that I searched for and found at Best Mountain Properties were a company with on-going training, support from the owners as well as an on-site broker, easy to follow processes and procedures and a welcoming team of agents. I don't regret a single moment!

~ Joan Chouiniere

Best Mountain Properties is the most progressive real estate company in the North Georgia Mountains. Tom and Kelly Beechler and Sandy Stevenson are constantly brainstorming to find new ways to attract buyers and sell listings in this less than ideal real estate climate. They are all readily available to answer questions and help with any problems that might arise. In a time when most companies are cutting back, they are maintaining a positive outlook and looking to the future with plans for expansion. They have all been invaluable in helping me develop and maintain my business.

~ Shelby Collins

It had been a pleasure to work with qualified and top notch professionals from the Owners Brokers, Tom & Kelly Beechler, the managing broker, Sandy Stephenson, and the other Associates. The company has premier service, training and support system.
