

OBDII Tracking Device Installation

(The World's Simplest Vehicle Tracking Device Installation)

- Unpack Unit
 - Package only includes device and instructions.
- Plug Unit into OBDII Port on Vehicle
 - Locate your vehicles OBDII Port under the dashboard, this is typically easy to access but you may need to consult your vehicle's manual.
- Wait for LEDs to Show Correct Indications
 - Green
 - Solid = No GPS Lock
 - Flashing = GPS Lock
 - Blue
 - Rapid Flash = No Cellular Connection (1 second on, 1 second off)
 - Slow Flash = Good Cellular Connection (1 seconds on, 3 second off)
 - Orange
 - OBD Communicating (i.e. ignition sense)

OBDII Pass-through Cable Assembly

The OBDII pass-through cable assembly serves as a highly covert and functional addition to the OBD GPS tracking device. Just follow these install instructions:

1. Remove your vehicle's OBDII Port mounting assembly
2. Mount pictured connector in place of your vehicle's OBDII port (removed in step 1)
3. Plug male connector in to your vehicle's OBDII connector to power cable (assembly removed in step 1)
4. Plug OBD GPS tracking device in to the female connector not mounted during step 2
5. Secure tracker and cable so as not to interfere with operation of vehicle
