We work continuously with insurance carriers in order to provide competitive pricing for each individual business. As a recovery agent, lenders and forwarders require that you carry specific insurance from "A" rated carriers. We recognize this and have the technology in place to efficiently and quickly process each transaction.

Let us customize an insurance policy for your specific needs.

Why RIS?

Your business has specific needs and requires specialized coverage forms. There are a limited number of insurance carriers involved in packaging insurance policies for the recovery industry. Our clients choose to do business with **Recovery Insurance Services** because we are a professional insurance agency focused on the unique exposures and insurance requirements for the collateral and recovery industry.

Let us customize an insurance policy for your specific needs.

We Insure ... You Recover
