

## “RUN FOR HOME”

Pastor Ronnie Vehorn and his wife Janet left Georgetown over twenty years ago. They left with a vision to start a ministry in South Africa. Since that time the vision has grown into a reality and multiplied. In this country filled with a predominantly Muslim religion and witchcraft, God is at work! Churches are being constructed and the people are readily accepting Christ.

In November 2009 a team from Victory Christian Fellowship traveled to South Africa. They stayed with Ronnie and Janet in the village of Whittlesea. While on their trip, they visited a few of the churches that Ronnie and Janet have helped establish.

In the village of Tentergate, a church started some years ago, is pastored by David and

and Nomzimasi Rewu. Their love for God is astounding, and serving is their passion. But not being accepted by some of the locals has taken its toll. David and his family are being persecuted, threatened and harassed because of their Christianity.

Their home is very cramped with the three girls. There's no floor, bath, or running water. When it rains the home floods and the battered tin roof leaks from the many holes. They've been asked by some of the locals why "their Jesus houses them in a mud hut if He is such a great God."

One of Ronnie and Janet's final dreams is to move the Rewu family out of this area and into a safer environment. Most of all, to give them a home of their own.

Construction is now underway. God has opened the door and some funding has already been raised but they're only half way there.

Our goal is to help in this effort by presenting a 5K Fun Run/Walk. We are asking for your support in this project. Please come join us in this event.

The Rewu Family at their church.

Any contribution, financial or physical would be greatly appreciated. The full Rewu Family story can be read on our web site along with downloadable registration forms.
