## Mr. Chugg Writes -

As I have watched our teachers interact with students this year in a variety of settings I am made aware again that the adult community life, the living gospel, communicates more to our children than all textbooks and chapel programs. The way the faculty and staff interact with each other is also a pattern of community in Christ for our students to emulate. It is through their modeling that the Christian worldview is really taught to the students. The hidden curriculum, this daily positive interaction of teachers and students, makes fertile environment for young people. If teachers are deep, wise believers walking with Christ in humility of the gospel of grace, character education will happen each moment of every day. If not all the lessons we teach formally in classrooms and in other venues will quickly be forgotten. We are blessed to have faculty that are consistent in their witness of the gospel to our students. They show compassion with each other. They demonstrate confession and forgiveness with each other. We are blessed with an intentional Christian community of adults who love Christ and want to share that love with students.

## Scrip

May 8th marked the last Friday to order Scrip for this school year. KCCS earned a gross profit of \$2,448.95 - a 53% increase from last year. Some families chose to use their half of the rebate towards next year's tuition and others chose to start banking their rebate toward their child's class mission trip. Thank you - Scrip will return next school year!

## Concession Area Needs

We need our stuff back and we need you to take away your stuff! Anyone who has taken the wash cloths and towels from the concession area needs to return them by **Monday, May 18th**. If you have taken anything else from the concession area, please return it immediately. If you have items in the concession area from past events that belong to you, please pick them up.
