What We Believe

There is an awful lot of discussion taking place these days regarding Republican strategy. A lot of people in the political arena, including many of our “so called” leaders are of the opinion that we should consider moving a little more toward the “center” in order to “build the Party base.” For the record; I could not DISAGREE more. In fact, we should be sticking more to the Conservative principles that have made our State and our Country the greatest in history. Maybe we should take a few moments to reflect upon what Texas Republicans believe are the core Principles that keep our Party strong.

We support:

Strong Families – Families intent on giving their children the hope of a better tomorrow, the promise of a safe and secure today, and an appreciation and respect for yesterday.

Limited Government – A government that promotes policies to unlock individual potential and unleash economic growth; a government that does not try to be all things to all people.

Opportunity for All – The opportunity to chart one’s own course, start a business, chase a dream, and build a life regardless of gender, race, or religion.

Personal Responsibility – Individuals taking personal responsibility for their own actions and a criminal justice system based on this idea. With freedom comes responsibility.

Rugged Individualism – The entrepreneurial spirit of the individual that continues to solidify Texas as a world economic power.

Principled, Innovative Leadership – Principled leaders with an understanding of Texas’ heritage and a clear vision for Texas’ future. Leadership that is unwavering in the face of criticism, steadfast when confronted with adversity, and committed to building a better State.

Honest Compassion – A society assisting those in need rather than a government trying to solve every problem by simply throwing more money at it.

Quality Education – An educational system that prepares children for tomorrow’s workplace regardless of race, wealth or geographical location. Education is the bedrock of freedom and the gateway to opportunity.

Freedom – Freedom that is God given, affirmed by our Founding Fathers, articulated in the Declaration of Independence, and protected by the Constitution.

Certainly, our Country is under attack from the liberals and we need to fight to save our Country. I suggest that we LEAD the effort by promoting our principles throughout the National Party. We can’t save the Country overnight; for sure it will take time. The Country’s challenges are too significant to be solved by “MICROWAVING” them. It’s time we take the “CROCKPOT” approach to regaining control of our Country. Regardless of which strategy the National Party chooses; for God’s sake let’s not SELL OUT TEXAS!
