

## Workshops

An evening workshop; a 4 to 6 week, 2 hour workshop series; or, a day long work shop can be designed. With a series, more can be gained by attending all the sessions, although, it is not required since each sessions stands alone.

### THE ASCENSION PROCESS

We'll look at the awakening the earth and humanity are now experiencing. How did we (the earth and humanity) get to this point? Our history as we know it going back 500,000 years is not what we thought it was. The 3rd, 4th, and 5th dimensions of consciousness will be explained. We'll talk about the coming ending of an age; the transformation period we are now in; the coming 5th dimensional age and the long term journey that will take us back home into the heart/mind of the Creator.

### SPIRITUAL PARAPSYCHOLOGY

This workshop is an overview of various Spiritual/Metaphysical topics, such as: Auras; Ours multi-dimensional self; Inner earth beings; Healing; Divas; Creating with Thought; Channeling; Dowsing; Entity placement; Indigo/ Crystal Energies; Past Life Regression; Spirit Guides; The Angelic Realm; The Ascension Process.

### 5TH DIMENSIONAL CHRISTIANITY

Working, primarily, with the Bible and the Urantia Book we will identify the lower 3rd Dimensional beliefs that make up much of today's Christian faith. We will identify the Biblical 5th Dimensional teachings that are largely overlooked. Thus, we'll end up with 5th Dimensional Christianity. The series will is informative, interesting and stimulate lots of thought and discussion. Expect some growth in your basic beliefs.

### THE URANTIA BOOK

Urantia is the name by which our planet Earth is known by those in the Spirit Realm. The book is channeled from the Spirit Realm. It has 4 parts and 2200 pages. This is one of the highest levels of information we have on the planet about:  
Who is God!  
The Creation of the Multi Universes;  
The evolution of life, culture, religion and government on planet Earth;  
Jesus- who was he before he came here; a year by year diary of his first 30 years; a day by day diary of his 3 years of ministry; and his three basic teachings.

## Personal Services

LIFE SCRIPT READINGS --- 45 min. \$65.00 (in person or by phone, includes tape) – Before anyone comes into the physical earth plane, they state their purpose for coming to the planet. Much time and effort is put into writing your script for this lifetime. When you were born, you left your memory behind. In a Life Script Reading, you, with the assistance of Carl, will enter the Temple holding the Akasic Records to look at your script. Thus, bringing into your consciousness the growth you are here to attain and the service you are here to give. You can then evaluate what you have already completed and what you have yet to do. In addition, the individual will be checked for Crystal/Indigo energy, how many Guides/Masters are overlighting them, how much time they spend in the 3rd, 4th, and 5th dimensions of awareness, plus becoming aware of how balanced (masculine/feminine and head/heart) they are. Family members can be checked for Crystal/Indigo energy without being present.

ENTITY PLACEMENT---30 min. \$40.00 (in person or by phone) Approximately, twenty five percent of the people that die do not complete the death process by going through the Tunnel of Light which leads to the Heavenly (astral) plane. They are stuck on the earth plane without a physical body. They often attach to people or places. If they attach to people, they accentuate what has attracted them. In Carl's experience, all people who are; addicted, with the exception of tobacco; diagnosed mentally ill; or emotionally disturbed have entity attachments. There is no cure until these entities are removed. Ortrun and Carl have been given the gift of intercession to call upon the Angels to lead these entities through the Tunnel of Light. This frees both the entity and the one to whom the entity was attached. Usually, immediate change is noted in the person who had these entity attachments.

NUMEROLOGY/DIVINATION READINGS- \$65.00 per 45 min. (in person or by phone, full birth name and birth date must be supplied when scheduling this service) - Did you know that your name and birthday play a significant role in your life? Analyzing the numbers that correlate with your name and birth date can reveal challenges, potentials and gifts that you brought into this life. In addition to the numerical analysis, intuition and pendulum divination can give answers to additional questions. With the new insights, different choices and directions can be taken to bring about peace and harmony.
